**WE DELIVER
CORRUGATED
PACKAGING
SOLUTIONS
ACROSS NORTH
AFRICA, THE
MIDDLE EAST
AND EUROPE**

Located in Cairo, Egypt, UNIPAKNILE focuses on industrial and agricultural packaging solutions, as well as takeaway-food boxes and promotional displays.

Established in 1996, UNIPAKNILE delivers a wide range of high-quality products and cutting-edge finishing options. These include standard flexographic post-print finishes, high-resolution pre-print options and the latest in flat die-cutting technologies.

With its strategic location and strong international focus, the company is ideally placed to deliver competitive packaging solutions across North Africa, as well as throughout the European and Middle Eastern markets.

UNIPAKNILE is a member of Sedex and is certified under ISO 9001:2000 and BS OHSAS 18001, as well as for its hazard analysis and critical control points (HACCP) and good manufacturing practices (GMP). It is also accredited by the Forest Stewardship Council (FSC), and is an approved Yum! supplier.

WE ARE COMMITTED TO SERVE YOU

Our expertise spans the full spectrum of packaging solutions, from design and manufacture to supply and recycling, ensuring we can meet every aspect of your packaging needs. Combining quality products and a highly personalized service, we will work closely with you to deliver the ideal outcomes for your business – first time, every time.

OUR CAPABILITIES

Paper variations: Brown or white, uncoated or coated, virgin or recycled

Fluting types: A, C, B, E, F Wall types: Single wall and Double Wall

Printing:

Flexographic postprint (up to 5 colors)

Flexographic pre-print (up to 7 colors + varnish)

WE SPECIALIZE IN FLEXOGRAPHIC PRE-PRINT, BEST USED FOR PROMOTION AND SHELF PACKAGING, AND LONG-RUN PRODUCTIONS.

High-resolution printing and registration accuracy due to increased stability and control of movement during printing.

Cost reductions through gsm reduction as the fluting strength is preserved.

Additional paper qualities applicable such as clay-coated paper and very light weight paper.

Coatings applicable such as anti-rub, anti-grease, anti-heat.

Shorter lead time per order and greater efficiency as the printing process is done in bulk quantities before orders are placed.

Greater consistency in color formulations and very minimal color variations as a result of automated on-site ink mixing.

Improved Box Compression Test (BCT) results as printing pressure on the fluting is eliminated.
